

Product Revision Notice:

Adaptor SGA/GEM/GP/GS05,06,15/GSM06/GC30 Series Label Sticker Revision

2018/04/27

In order to increase the rate of production automation and solve the problem of ink fading away after long time usage, label stickers being used on MEAN WELL's adaptor SGA12~40, GEM12~40, GP25/50, GS05/06/15, GSM06 and GC30 series will be changed. Original label stickers that have to be attached to products manually will be replaced by laser engraving printing method (shown as below table). Product revision will be implemented series by series and started from Jan. to Mar. in 2018. Please be advised that there will be a transition period to consume our stocks on hand.

For the change on printing method of label marking, MEAN WELL already finished updating safety certificates involved. Therefore, neither electrical performance nor compliance with safety regulations will be affected. Furthermore, to maintain our competing edge, MEAN WELL completely absorbs any relevant costs incurred, and makes no adjustment on the pricing. Regarding details of revision please refer to table below. Should you have any questions on the label change, please contact your sales representatives of MEAN WELL.

1. Revised Date: Since 2018.1~2018.3, series by series (Modified models are included)
2. Revised Illustration:

Revised Series	SGA12/18/25/40/60U/E Full Series GEM12I/18I/30I/40I Full Series GP25A/B, GP50A Full Series GS05U/E, GS06U/E, GS15A/B/E/U GSM06U/E Series GC30B/E/U Series
