

## The Main Purpose for Cooperation Between LUXTRONIK and MEAN WELL is to Provide Our Customers with Assurance and Peace of Mind

Date: 2018.09.21

LUXTRONIK's cooperation with MEAN WELL has produced a win-win solution for customers, LUXTRONIK and MEAN WELL, which not only satisfies our customers' needs, but also allows LUXTRONIK to achieve a higher evaluation in the LED lighting market. Our respective demands for high quality products and customer service are also the foundation for long-term cooperation between LUXTRONIK and MEAN WELL. We are honored to announce that LUXTRONIK's testimonial film was officially launched today. We invite you to watch it by clicking the picture below.

Luxtronik Technology Company Limited, which has been established for more than 7 years, is a high-tech enterprise integrating Research & Development lighting solutions, construction and maintenance. They specialize in a variety of LED's indoor and outdoor lighting solutions, and Luxtronik's brand can be found in warehousing and transportation, stadiums, military search, airport terminals, harbor, and oil depots and other places. MEAN WELL's LED drivers are widely used in Luxtronik's products, which have earned a good reputation for high stability and high performance in the market.

At all times, Luxtronik has been researching and developing high power lighting products, and in recent years they have been devoted to promoting their applications in horticultural lighting. With MEAN WELL's LED driver "HLG series", Luxtronik expects to solve customers' problems with lighting equipment in humid, high temperature and corrosive environments, and makes customers feel safe and self-assured.
