JMLED owns a great reputation in Taiwan LED industry. In order to serve the customers with high quality and high reliability, JMLED chose to cooperate with MEAN WELL who also shares the same value as the long-term partner. It is our great honor to have the chairman from JMLED— You-Hong, Lin with us, to introduce the successful case that JMLED and MEAN WELL had accomplished. You are warmly welcomed to enjoy the JMLED video with us!

To serve the national-renowned steel corporation, JMLED chose MEAN WELL's HVG series to comply with their luminaires. In the end, the products passed the severe standard evaluation and tested on-site over a long period of time. Not only did we acquire customer's affirmation, but also appointed to be the long-term supply partner.
